

Alliance of Independents

Comhaontas na Neamhspleáigh

- Anti Corruption - Accountability - Justice for All - Nationalist - Neutrality

'We declare the right of the people of Ireland to the ownership of Ireland and to the unfettered control of Irish destinies, to be sovereign and indefeasible.....equal rights and equal opportunities to all its citizens..... cherishing all of the children of the nation equally'

1916 Proclamation

The Freedom Manifesto

" Empowerment VS Disempowerment AND the Need for Full Accountability

The purpose of the current political and economic system is to grind you down, instil fear into you, and disempower you. Their objective is to disempower you and keep you disempowered. And they lie to you and provide you with false promises and false hope so as to keep disempowering you. Only Independents representing the ordinary people and serving their interests can stop this, can empower you and build a totally new system"

Permanent, Effective and Lasting Solutions

We support an end to Corruption and the enforcement of Full Accountability and the Empowerment of all Irish people, that means empowerment for you, your partner, your family, your loved ones, your friends and colleagues and will involve implementation of the following

- 1. Independents who represent and serve you and the ordinary people of Ireland** NOT corrupt political parties which serve vested interests, the property speculators and vulture funds, the elite and the Globalists and use the party whip to enforce a dictatorship inside the political party. Political parties are dictatorships. They lie to you and make false promises, and will continue doing this.
- 2. Structures of Accountability**
End the corruption in the courts and legal system and the police. Set up totally new courts and new legal system and police system and new oversight systems. New **Structures of Accountability** and constant oversight to identify, investigate, expose and prosecute corruption and injustices, 24/7. Rid the Irish courts of all traces of the British system, including styles of dress and behaviour. Promotion of Law and Order not corruption, injustices and cover ups which we have now and have had for over 100 years. Sensitive court cases where the state or state body is a litigant or party in a court case will be heard in impartial and independent courts outside the state.

A Democracy of Full Accountability and Transparency in politics, state bodies, policing and legal system and financial system. Ending corruption. The Firings, Prosecutions and Jailings of corrupt individuals. The closure of corrupt bodies. Making the government and politicians and civil servants and state bodies the servants of the people and fully accountable to the people as defined in the Irish Constitution of 1937. New **Structures of Accountability** to enforce accountability and eliminate corruption.

3. Full Support for the Good Friday Agreement and Peace Process and achieving a 32 county United Ireland and 32 county Dail Eireann by referendums in the North and by democratic, peaceful and commercial means

We are nationalists and committed to Irish national sovereignty not to Globalism, Federalism and Open Borders and foreign takeover which destroys national sovereignty and national culture.

4. End the high legal costs crisis which prevent access to the courts and to justice in Ireland. End the champerty and maintenance laws which were introduced into Ireland by Oliver Cromwell and used by the British and elite to deprive the Irish people of justice in the courts. These Cromwellian laws have been used in Ireland since 1922 and are supported by the political parties in Ireland.

5. End the system of Debt Slavery and Free Ireland of this slavery

End debt slavery including the creation of money out of nothing by banks to debt enslave governments, families, individuals, communities, businesses, investors, farmers, and community organisations. And the creation of interest out of nothing so as to rob more value from the people and the economic system and further enslave the people.

Political parties keep the problem in place and ignore the problem and provide superficial solutions which don't work, have not worked, and create more problems. We propose to remove the problem or problems and the causes of the problems, then we can put Ireland right.

6. Ending Debt Slavery and fraudulent debt and money created out of nothing will provide funding for massive new investment in the following :

• Housing Solutions and Homelessness Solutions for all people in Ireland

End homelessness and the housing shortages. Massive expansion of Abundant and Affordable Housing for all Irish people including private housing, affordable and price capped housing, mass conversions of derelict buildings, conversion of empty sites of land and commercial properties into residential units, and a large expansion of social housing. More flexible planning permission. Use of modular homes, mobile homes, etc. as interim measures. The provision of anti addiction programmes, new skills and job opportunities for the Homeless and Jobless. Jobs and Full Employment for all Irish people including disabled people who can work. An end to open borders and the implementation of controlled immigration with caps. This will give us time, funding and room to house Irish citizens, all of the homeless Irish, and foreign refugees fleeing wars.

- **Solve the Hospitals crisis. Massive Investment in Hospitals, Healthcare and Healthy Living programs and effective Alternative Health programs for everybody.**

End the hospitals crisis and waiting lists. Massive investment in a totally new, better and more effective Hospitals, A and E's, Primary Care centres, the Treatment Purchase Fund, and Healthcare services for all Irish people. And massive investment in healthy living programmes and effective alternative healthcare and rewards and incentives for this. Build a healthier and fitter Ireland, and fund and encourage this at local level, in communities and in regions.

- **New Public Banks to serve the Ordinary People and serve Democratic Capitalism and Economic Democracy to build up the Irish people and Nation**

A totally new public banking system, non usury based, to facilitate this economic regeneration of Ireland. Loans which are asset backed, non interest and business friendly. We will use this to build democratic capitalism where everybody has a share in businesses and coops and in the economy, and has an opportunity and incentive to work and increase their earnings and shares. Massive new investment in Irish businesses and Irish communities and big tax cuts to stimulate investment, consumption and employment and the re-opening of closed businesses in the cities, big and small towns and villages of Ireland. More employment opportunities for Irish nationals.

- **Empower the Working Class and Working Class communities through Economic Democracy and Democratic Capitalism. A new Economics which is inclusive and includes you and your family and your communities. And a stronger, more stable and more resilient business and investment climate, not more speculative bubbles, crashes and constant debt slavery.**

Economic Democracy or Democratic Capitalism where everybody is a shareholder and stakeholder and is given an opportunity to work and actively works for better businesses, organisations, economy and society. Massive investment in Democratic Capitalism. Use this to replace welfare and some state programs. An end to discrimination, apartheid systems, and dictatorship capitalism. The empowerment of ordinary working class people and the full development of their human potential through wider capital ownership and continuous Work-related Training and Job Placement to improve the skills and potential of all people so as to improve value added goods, services, innovation, and productivity.

- **An End to carbon taxes and crazy net zero policies which bankrupt economies**

An end to carbon taxes and crazy net zero policies and the achieving of lower fuel prices for Ireland. Massive reduction in energy prices. More investment in green energies and a gradual move to green energy and new revolutionary energy technologies and energy security over 80 years. This will be balanced with low energy costs during this transition phase over 80 years.

- **Reduce Taxes and set up a low tax environment for everybody**

Ending Debt Slavery will make room for big reduction in taxes and elimination of some taxes and levies. Over time, reduce taxes, levies and charges and reward work, training, education and investment. A Low tax environment for all people.

- **Housing Solutions and Homeless Solutions which involve an end to Open Borders and Mass Migration and Illegal People Trafficking**

We will end Open Borders and Mass Migration and Illegal People Trafficking. We will introduce mandatory police vetting at our border and tighter border controls. Caps on immigration and enforcing the law to stop illegal immigration and people trafficking and end the present facilitation of people trafficking by elected politicians. The evidence and facts show that Open Borders and Mass Migration has worsened housing problems, homelessness, evictions, the hospitals crisis, the schools crisis, the employment and low wages crisis, the high crime levels and the national debt, further bankrupting small countries such as Ireland. Sweden is the best example of the Open Borders disaster and Mass Migration disaster. This is widely acknowledged in Sweden and across the world.

Protection of the Constitutional rights and Human Rights of the Irish people who require affordable housing, affordable rents, hospital care, adequate education, employment and fair wages, crime free communities, a strong and thriving Irish and Gaelic culture, and a much lower national debt.

- **End Inflation and Lower the Cost of Living. A new hard asset backed Currency.**

Ending debt slavery and ending speculation in prices and ending excessive money printing and implementing many changes to increase the supply of goods and services and increase productivity and innovation as proposed in our Policies on the web site will end inflation and lower the cost of living. The creation of new debt free money which is inflation free and is linked to rare metals and productive assets and is used for productive purposes and employment, not speculation. This will stabilise prices. A 30 to 40% reduction in the cost of living in terms of lower food prices, lower energy prices, lower goods and service prices, lower taxes, lower rents, and lower mortgage payments. And more competition in the marketplace and an end to monopolies, cartels, and restrictive practises will assist this reduction in prices.

- **Crime**

Are you disgusted by the high crime rates and the fact that the government and political parties have ignored this problem for many years and decades ? They have no resources to fight crime but plenty of resources and money for wasting on daft and unnecessary government projects, massive waste in the state sector, open borders and people trafficking, NGO's, wasting billions of euros. We will end this nonsense and waste, and restore law and order through massive investment in policing, new prisons, courts which are open 20 hours per day, youth rehabilitation programs, community development programs, social inclusion programs, and other measures. And police vetting of all people coming to live in Ireland, the deportation of criminals, and an end to open borders and mass migration.

- **Private Property**

We oppose the seizure of private property by the state and by Vulture Funds and Globalists in the proposed 39th amendment to the Constitution. Protect your private property. We oppose the 39th amendment to the Irish Constitution and we will overturn it if elected.

- **Empower the Farmers and Rural Businesses. Protect Rural Ireland and Regenerate it.**

Protection of the incomes, businesses and livelihoods of all Irish farmers and massive new investment in rural Ireland, farms, and guaranteed Irish agricultural products, value added agricultural goods and services, Food Security, and the regeneration of rural businesses, towns and villages NOT more neglect of rural Ireland, more hardships, more red tape, carbon taxes higher fuel prices and fertilizer prices to meet net zero targets and policies, more restrictions on land use, more cutbacks against rural Ireland, including closed businesses and post offices, banks etc. in rural towns and villages, and the bankrupting of farmers to suit Agenda 2030 and net zero policies which elected politicians are doing now - they are destroying rural Ireland.

- **Support for Local Communities**

Massive new funding of communities and community centres and sporting facilities and adventure facilities and cultural facilities around Ireland and new investment in rehabilitation programmes to help people overcome addictions and become productive and happy members of society. Restore the **Meitheal**, which was used in Ireland for thousands of years.

- **National Sovereignty and Individual Sovereignty**

Restore Irish National Sovereignty. Referendums for 32 county Irish Republic and 32 county Dail Eireann. We will oppose, reject and overturn the **International Health Regulations of the WHO** which aims to destroy the national sovereignty of Ireland and other nations. We will overturn this if elected. In addition to restoring national sovereignty we will restore Individual Sovereignty and Empowerment for ordinary people. This includes implementation of Common Law and Common Law courts and compulsory legal rights education in secondary schools and third level institutions.

- **Protection of Free Speech and a Free Press and Media. The closure of RTE and the end of TV licence.**

Overturn and remove laws or provisions which breach freedom of speech, including the new hate speech law. Full support for Free Speech and a Free Press and Freedom of Expression, and freedom in the broadest sense. We support a free and independent Press and Media not controlled press and censorship. The closure of RTE and the selling off of its assets and bandwidth to many private independent news providers. End the TV licence. People would be free to subscribe to the channels they want. This would protect freedom of choice, freedom of speech and a free press and media.

- **Education of children. Protect your Children from damaging new education policies.**

We will give parents full control over the education of their children and not give it to unelected bureaucrats, globalists and NGO's with sinister, perverted, and hidden agendas as is presently the case. Parents will have the right to refuse education which they believe is perverted, obscene, inappropriate, and dangerous for their children. Teachers will have their freedom of speech rights and freedom of religion rights protected.

- **Justice for those people injured or made ill by vaccines or medical drugs**

The treatment and restoration to full health of all those people injured, made ill or disabled by vaccines or

medical drugs and the full financial compensation of these people by the state and by vaccine companies. Free medical assistance for those thousands of people injured, disabled or killed by vaccines and medical products. Tribunals and investigations to establish the facts and evidence of vaccine damage or medical drug damage and referral of this for court hearings.

- **Healing Centres and the Healing of the Irish People and Nation**

The Irish people have been greatly damaged for over 800 years. Many types of abuses and injustices and indeed genocides have been inflicted on the Irish people. This damage and pain has passed from generation to generation and this adversely affects many families and communities around Ireland. We will invest in healing centres using the best healing methods and techniques from around the world.

These healing centres will use some of the Healing methods proposed at www.healingcentres.org

- **Restoration of natural resources back to the People of Ireland, Preservation of Irish and Gaelic Culture, and More Direct Democracy to Empower ordinary people**

Full **Restoration** of the natural resources of Ireland back to the people of Ireland. Similar to the Norwegian sovereign wealth fund. Constitutional referendums to restore these resources back to the people. End the theft of Ireland's natural resources and the corrupt enrichment of some politicians.

Preservation of Irish culture, language, music, identity and dignity. Urban Gaeltachts in cities, towns, and villages. New multimedia platforms online and offline to facilitate this.

More Democracy in Ireland including direct democracy at local level and national level and new structures of accountability. Give power back to the ordinary people of Ireland. Empower you and your family.

- **Irish Neutrality**

Preserve Irish Neutrality and stop the Irish political parties trying to end Irish Neutrality. Oppose and end the Globalist war machines and the drift to nuclear war and actively work with other nations and peoples for peace between peoples and nations worldwide and justice around the world.

- **We will put an end to the corruption, criminality, wrong doing and injustices listed 1 to 21 on <https://irish-independents.org/index.htm#problem>**

Our Policies can be viewed on <https://irish-independents.org/policies.htm>
